

# INTRODUCING | the new shape of pet diabetes management

Sleek pen style for increased **ACCEPTANCE**

Ergonomically designed for **EASE** of handling

Precision instrumentation for dosing **ACCURACY**

All-in-one construction for greater **CONVENIENCE**

**Caninsulin® VetPen®**  
Innovative insulin delivery that drives convenience and compliance.

The only thing harder than telling clients that their pet has diabetes is explaining what's involved in managing the condition. Caninsulin VetPen can change this conversation with technology that simplifies dosing and administration, and convenience that makes it easy for clients to comply with your prescribed treatment regimen.

To test drive the first and only veterinary insulin pen, contact your local MSD Animal Health representative or visit [www.Caninsulin.com/VetPen](http://www.Caninsulin.com/VetPen).
